

Migrating to Dynamics 365 Business Central Overview

Why Dynamics 365 Business Central

Your Dynamics on-premises solution helped you run and grow your business. But in this time of digital transformation, a modern, cloud-based solution can help take your business to new heights. Business Central helps companies reduce long-term software costs, decrease dependency on IT, and optimize operations and customer experiences through predictive analytics, AI, and data visualizations. Take the next steps to learn how Business Central can help you:

- ✓ **Stay current on the latest Microsoft cloud-powered technology** without the hassle and expense of upgrades, backups, and patches.
- ✓ **Reduce total cost of ownership and improve cashflow** by transitioning to a predictable monthly operating expense. A modern user interface based on the Office tools you already know means less training time and faster return on investment.
- ✓ **Make better business decisions with advanced analytics.** Access, model, and analyze data across multiple dimensions. Seamlessly sync data with Microsoft Power BI to create compelling dashboards and data visualizations.
- ✓ **Leverage your data to build apps specific to your business processes.** Further extend your Business Central solution using Microsoft Power Platform and the Common Data Service.
- ✓ **Gain peace of mind** knowing your sensitive business data is stored in highly secure, state-of-the-art data centers owned and managed by Microsoft and a 99.9% uptime service-level agreement (SLA).
- ✓ **Improve remote access and empower employees wherever they need to work** with powerful, secure desktop capabilities across Windows, iOS, and Android platforms.
- ✓ **Simplify common tasks with native Microsoft 365 integration.** Set up customers or vendors, create quotes, process orders, and submit invoices without leaving your inbox. Easily export data in Excel and create outgoing documents directly in Word.
- ✓ **Utilize the power of AI for predictive inventory, sales forecasting, cash flow forecasting, and overdue payment predictors.** Combine big data, predictive analytics, and Internet of Things (IoT) to transform all information sources into more actionable intelligence.
- ✓ **Configure your systems with ease and connect third-party apps to Business Central** using business add-ons from AppSource. Or work with your Business Central partner to build extensions for your specific needs.
- ✓ **Be ready for what's next.** Easily add and integrate other Dynamics 365 applications as your business needs change and integrate with other third-party apps.
